COMBAT CONTROLLER

Retired U.S. Air Force Combat Controller and Joint Terminal Attack Controller (JTAC) providing expert flight following, enroute routing, terminal approach control and controlled approach services under the most demanding of operational conditions, including combat behind enemy lines. Highly organized with a proven ability to manage multiple projects, tasks and priorities effectively and in a timely manner. Superior communicator; highly effective at all organizational levels. Core competencies include:

- ◆ Top Secret/SCI Clearance ◆ Team Player/Team Leader ◆ Multi-Tasker
- ◆ Mentoring & Training ◆ Sets Performance Standards ◆ Quality Assurance
- ◆ International Experience ◆ Innovative Problem Solver ◆ Excellent People Skills

PROFESSIONAL EXPERIENCE

Seasoned Joint Terminal Attack Controller: Proven team leadership skills combined with operational deployments to Iraq, Afghanistan and the Horn of Africa in support of Joint Special Operations Command ground forces. Career highlighted by success and continued achievement.

- Provided terminal guidance for five Special Forces teams and three partner forces in Afghanistan to resolve 20+ troops-in-contact situations for six enemy combatants captured and 39 EKIA.
- Mission planning critical to the success of eight Direct Action raids against armed Iraqi insurgents and the apprehension of four high-level enemy combatants.
- Deployed into non-permissive environments using static line and military freefall parachute techniques, SCUBA and other covert infiltration methods.
- Carried out terminal guidance for Special Forces teams and 100+ elite Iraqi forces.
- Provided combined inter-service coordination that ensured priority mission essential tasks training was incorporated into joint/combined exercises and exchange training.
- Strictly ensured that all flight control was conducted in full accordance with military, FAA, ICAO, and host nation rules & regulations.

Leadership & Supervision: A superior leader with demonstrated performance in high-pressure environments. Improved organizational performance through hands-on training and a leadership approach that emphasized decision-making through active listening.–

- Managed, supervised and trained 54+ apprentice JTACs in the integration of all close air support assets to include artillery and naval gunfire in joint and combined ground forces operations.
- Instructed other DOD branches and allied countries in Foreign Internal Defense (FID), interoperability and Special Tactics (ST) procedures.
- Identified requirements for planning and coordinating contingency deployments and joint combined exchange training for a 130-person Special Tactics (ST) Squadron.
- Developed and maintained lesson plans to support unique training opportunities; managed the squadron's Standards & Evaluations program; renowned for professional expertise.

Problem-Solving & Analysis: Consistently implements keen analytical abilities and a proven team-based work dynamic with a systems-oriented approach to facilitate efficient and effective solutions. A critical thinker open to alternative views to optimize decision-making.

- Established and maintained a trend analysis program and provided improvement strategies.
- Planned and led three mission exercises integrating joint operations with multiple air platforms as the air-to-ground interface crucial for mission success.
